

HSE Product Profile: MQ 21 D 6m

Medium-duty serrated double-channel for productive fixation of installation systems and secondary structures

Criteria	Value
PCF: (GWP 100 years) kg CO ₂ -eq.	75,747 kg
Ozone Depletion Potential (ODP, catalytic) [kg 11-eq.]	0,000000519 kg
EPD/FDES	No
VOC	No
Materials used	S250GD - DIN EN 10326
Surface finish	Sendzimir galvanized
Risks for local environment	No
Manufacturing Location	Austria, Switzerland, Germany
Recycled content	20%
Reuse of materials / Convertibility	Yes – materials reusable and convertible within their intended lifespan of 25 years
End of life status	Recyclable
Acoustic performance	Not relevant
Certificates available	None
MSDS necessary	No

Material	Production	Use	End of life	Transport
Global Warming Potential (GWP 100 Years) [kg CO ₂ -Eqv.]				
45,152	0,477	0,000	21,444	8,674
Total CO ₂ : 75,747 kg
